Hello Marlene ,

This is the owner of zeusdb (98899187) . The company Venture Consulting Group Pty Ltd. and former lawyer Joshua Gerben defrauded the United States and created a concentration camp in the USPTO when they falsely made a claim for ZeusDB (99400139) , and it happened for all time , for all to see . Joshua Gerben and Venture Consulting Group Pty Ltd. committed the Bondi Beach shooting , the Deadliest Terror Attack in Australia .

We will be seeking the disbarment of Joshua Gerben , it will happen to matter what , and the permanent truth about the atrocity Joshua Gerben and Venture Consulting Group Pty Ltd. committed against the Jews at Bondi Beach is etched into history for all time .

I've contacted the authorities in Australia and the IC3 in the United States . Any further involvement with Joshua Gerben or Venture Consulting Group Pty Ltd. from you may be considered defrauding the United States . This all happened during an investigation I'm going through with the EEOC against a former employer who discriminated against me being a Semite , I'm right about to file the charges as the investigation is in that stage .

I've never committed a crime (and I've never committed a sin) , their mutilation of the US government and justice system as its thoroughly involved with the USPTO is ALL CRIME (and ALL SIN) .

Every single word will be analyzed in the upcoming litigation against Joshua Gerben and Venture Consulting Group Pty Ltd. , and Joshua Gerben will be held accountable for the deaths at Camp Mystic Texas (July 4 , 2025) , Boulder Colorado (June 1 , 2025) , and Bondi Beach Australia (December 14 , 2025) . I have a perfect record , and Joshua Gerben he has a record of working with companies that FAMOUSLY mutilate children and children's genitals and dedicate enormous resources to mutilating children and even adults .

The sadness from the attacks that were stated transcend all humanity , and we will never be able to quench the sadness that can be felt when thinking of those events and what unfolded to form those atrocities .

Regards ,
Gavin Potter
