Hello ,

I wanted to make sure I report to you guys at the APWG that I have contacted the FBI multiple times over attacks that have happened in the United States , Australia and Switzerland about the cyber network that is orchestrating the attacks .

The FBI has yet to respond .

I will be contacting you again to further detail the reports . I wanted to send this email so you're aware of the incidents . Furthermore I understand Kash Patel has gathered intel from my complaints ... and its been released he's using AI without consolidating logical assessments of ongoing terror activity .

I'm in shock ... I've never seen ANYTHING so horrific . I couldn't account a more horrific event . Especially considering the circumstances it's been carried out and the frankness of the attacks .

I'm focused on being a US citizen and starting a family and making connections while ensuring US law is exactly and perfectly upheld .

Other important events : phishing scam / mutilation carried out against Federal Judge by Pam Bondi through invalid authentication features , TMScams notified as well

Regards ,
Gavin Potter
