Hey Cheryl ,

I'm delighted I have the opportunity to email you , unfortunately , under not so remarkable circumstances . I have tremendous respect for you as a lawyer , an exceptional occupation .

Another terror attack has happened (the shooting at Bondi Beach , on December 14 , 2025) , after the attacks I mentioned previously when describing the very notion of my company zeusdb .

I'm going to forward the emails I sent to the APWG and TMScams in order to get the word out about the crimes committed , again infinitely unfortunately , around my trademark which should be redeemed with no complication .

Also , I'm in the middle of an investigation and filing charges with the EEOC because of the events unfolding behind starting my business , as a perfectly law abiding citizen , who has never committed a crime (or a sin) , or indignified any person , ever .

I'll send you the filing numbers for the current dockets I have sent to the government .

Submission ID: 0c8d40214806490781f997ce698e463a

EEOC inquiry number:

523-2025-03044

EEOC inquiry number:

523-2025-04463

I'll give you the links to my socials if you feel like web crawling those . Its www.zeus.diamonds . You can find the pages to my news papers / magazines via those links .

I just want you to know Cheryl , I'm happy to work with you and make sure everything is proper and formal and filed correctly so I can continue on with my company and trademark zeusdb as I'm properly entitled . I will be pressing charges against Josh[ua] Gerben and the company Venture Consulting Group Pty Ltd . . Joshua Gerben and Venture Consulting Group Pty Ltd . defrauded the United States , and I can't be a part of any sort of criminal activity , or take it seriously (I've never committed a crime) . I am a Semite and a Catholic , a Jew , and a Muslim , and in regard to the community of the Children of Abraham I do have to make sure that justice is upheld through the law and that the law is entirely and properly upheld .

I would like to make sure that their application is rejected and formally posted as dead or rejected in light of the events that unfolded and have taken place .

The trademark number for my company's trademark is 98899187 . 988 is the year Matilda of Swabia was born . And I do have to say that I wept one of the most sad and dejected cries that I have ever cry when hearing about the Bondi Beach shooting , especially after understanding the passing of Matilda Britvan after she was murdered by the demons who shot her with sniper rifles . Joshua Gerben and Venture Consulting Group Pty Ltd . orchestrated the murder of innocent Matilda , and we will be pursuing those charges , Cheryl , for all time . We will never stop pursuing those charges , and Joshua Gerben and Venture Consulting Group Pty Ltd . took part in the Boulder CO and Camp Mystic killings as well in their criminal case ... I will be collecting all evidence that I can to make sure the law is carried out exactly correct and as is proper and entirely formative .

Regards ,
